## COURSE OF STUDY IN COLLEGE.

## FRESHMAN CLASS.

## FIRST SESSION.

*Latin*.—Sallust; Grammar, (Andrews' and Stoddard's, — Revised Edition); Prose Composition, (Arnold).  
*Greek*.—Herodotus, (Johnson); Grammar, (Crosby); Prose Composition, (Arnold).  
*French*.—Grammar, (Value's Ollendorff); Elementary Reader, (De Fivas).  
*Spanish*.—Grammar, (Ollendorff); Reader, (Velasquez).  
*History*.—Weber's Outlines.  
*Mathematics*.—Davies' Bourdon.

## SECOND SESSION.

*Latin*.—Cicero's Orations; Prose Composition.  
*Greek*.—Xenophon's Memorabilia, (Robbins'); Prose Composition.  
*French*.  
*Spanish*.  
*History*.  
*Mathematics*.—Algebra, (completed); Geometry, (Davies' Legendre).

## SOPHOMORE CLASS.

## FIRST SESSION.

*Latin*.—Horace; Prose Composition; Grammar, (Andrews' and Stoddard's, — Revised Edition).  
*Greek*.—Homer's Iliad; Grammar, (Crosby); Prose Composition.  
*French*.—Classic Reader, (De Fivas); Exercises in Writing.  
*Spanish*.—Reader; Exercises in Writing.  
*Ancient Geography and History*, (Putz and Arnold).  
*Mathematics*.—Geometry, (completed); Trigonometry, Plane and Spherical.

## SECOND SESSION.

*Latin*.—Cicero de Oratore; Prose Composition.  
*Greek*.—Demosthenes: Oration on the Crown, (Champlin); Prose Composition.  
*History*.  
*Rhetoric*.—Blair's University Edition.  
*Mathematics*.—Mensuration of Surfaces and Solids; Surveying and Navigation, (Davies'); Analytical Geometry, (Church's).

## JUNIOR CLASS.

## FIRST SESSION.

*Latin*.—Germania and Agricola of Tacitus, (Tyler).  
*Greek*.—Antigone of Sophocles.  
*French*.—Charles XII.  
*Spanish*.—Carras Marruecas.  
*Logic*.—(Hedge's).  
*Political Economy*.—(Say's).  
*Mathematics*.—Analytical Geometry.

## SECOND SESSION.

*Latin*.—Plautus, (Dillaway).  
*Greek*.—Alcestis of Euripides.  
*French*.—Corinne.  
*Spanish*.—Iriarte and Moratin, (Sales).  
*Mental Philosophy*.—(Upham).  
*Natural Science*.—Chemistry, (Stockhardt); Mineralogy, (Dana).  
*Mathematics*.—Mechanics of Solids, (Bartlett).

## SENIOR CLASS.

## FIRST SESSION.

*Latin*.—Cicero de Officiis, (Thacher).  
*Greek*.—Epistles of the New Testament.  
*French*.—Racine.  
*Spanish*.—Don Quijote, (Appleton's).  
*Political Philosophy*.—International and Constitutional Law.  
*Mathematics*.—Mechanics of Fluids; Optics and Acoustics, (Bartlett).

## SECOND SESSION.

*Bojesen's Antiquities*.—(Arnold).  
*Greek*.—Gorgias of Plato.  
*French*.  
*Spanish*.  
*Moral Philosophy*.  
*Natural Science*.—Botany, Zoology, and Geology.  
*Mathematics*.—Astronomy, (Bartlett).

In place of the Greek language, two modern languages may be substituted, and the student admitted to the usual Collegiate degrees. In this case, however, an extra fee of \$10 per session will be charged.

## COURSE OF STUDY IN PREPARATORY SCHOOL.

---

### FIRST YEAR.

Orthography; Reading; Penmanship; Geography; Mental Arithmetic, (Stoddard's); Declamation.

### SECOND YEAR.

Orthography; Reading; Penmanship; Geography; Mental Arithmetic, (Stoddard's); Juvenile History, (Willson's); English Composition; Declamation.

### THIRD YEAR.

Orthography; Reading; Geography, (reviewed); Arithmetic, (Parkins' or Davies'); English Grammar, (Brown's or Bullion's); History of the United States, (Willson's); First Latin Book, (Harkness'); Latin Grammar, (Andrews' and Stoddard's); Second Latin Book, (Harkness'); Greek Grammar, (Crosby's); Greek Lessons, (Crosby's); Composition; Declamation.

### FOURTH YEAR.

Arithmetic, (Davies' University); Algebra, (Davies' First Lesson); Book-Keeping, (Mayhew's); Natural Philosophy, (Parker's); Physiology, (Cutter's); Barrington's Natural Science; Mythology, (Anthon's); Ancient Geography, (Mitchell's); Latin Grammar, (Andrews' and Stoddard's); Caesar's Commentaries; Virgil, (Cooper's); Greek Grammar, (Crosby's); Xenophon's Anabasis, (Crosby's); Composition; Declamation.

The School occupies a commodious building, and is designed to afford pupils a thorough preparation for the Freshman Class, and also a complete course of English studies. It is under the immediate supervision of the Faculty, and is subject to the general regulations of the College.

---

### ADMISSION INTO COLLEGE.

Candidates for admission into the Freshman Class must be prepared to sustain an approved examination on English Grammar, Arithmetic, and Geography, Ancient and Modern; on the Latin and Greek Grammars, Latin Reader, Caesar's Commentaries, Virgil, and Bullion's Greek Reader, or other Greek and Latin authors equivalent to these; and on Algebra, as far as through equations of the first degree.

A candidate for advanced standing, whether from another College or not, is examined in the various branches to which the class he proposes to enter has attended.—Students who, from want of means, or from other considerations, desire to pursue an irregular course, may do so, with the consent of their parents or guardians. Applicants for admission are required to present testimonials of good moral character; and, if from other Colleges, certificates of good standing and regular dismission.

### TUITION FEES AND OTHER EXPENSES.

Tuition Fee in College, per session, for Freshman and Sophomore Classes,	\$25 00
Junior and Senior Classes,	30 00
Tuition in Preparatory Department,	10 00 to 15 00
Boarding, including lodging, fuel and lights, per month,	10 00 to 12 00
Room-rent in College building, for each student, per session,	3 00

A fee of two dollars per session is paid by each student in College for contingent expenses; in Preparatory School \$1 50.

There are some minor expenses, which result from taxes voluntarily imposed by classes or societies. In other incidental expenses, if money is furnished, or permission given to contract debts, a student may be extravagant. To guard against this, it is earnestly recommended to all parents and guardians not to authorize the obtaining of credit, unless under the special supervision of some friend. Boarding can be procured at the above prices in the most respectable families in the place.

The fees for tuition must, in all cases, be paid in advance, and a receipt obtained from the Treasurer, to be presented to the Clerk of the Faculty. Without such certificates, or some other satisfactory arrangement with the Faculty, no student will be permitted to recite. The Trustees will hold the Faculty responsible for the tuition fees of those who may be admitted to recitation in violation of this provision.

Those entering under scholarships, or as ministers, or candidates for the ministry, will obtain from the Treasurer certificates of that fact, which will also be presented to the Clerk of the Faculty.

### SESSIONS AND VACATIONS.

The collegiate year is divided into two sessions. The winter session begins on the second Monday in September, and terminates on the last Thursday in January. The summer session begins on the following Monday, and terminates on the last Thursday in June, which is commencement day.

### SCHOOL-KEEPING.

Meritorious students, whose circumstances require it, may, at the discretion of the Faculty, be absent for a limited time for the purpose of keeping school.

### LITERARY SOCIETIES.

There are three Literary Societies connected with the College, with libraries of well selected books. The object of these associations is chiefly improvement in composition and oratory.

### YOUNG MEN'S CHRISTIAN ASSOCIATION.

The young men of the University, in connection with young men of the town, have organized a Young Men's Christian Association on a plan similar to that of the most successful institutions of the kind. Every student should be under the restraining influences of such an association.

### PRIZE DECLAMATION.

At the close of each Collegiate year there is a public exhibition and trial of skill in Elocution, in which members of College classes participate. A prize of twenty dollars is offered to the best declaimer.

The prize for 1856-7 was awarded to John Hyde Braly, of Santa Clara, California; for 1857-8, to Benjamin David Stewart, of Winchester, Tennessee.

### ADVICE TO PARENTS AND GUARDIANS.

1. When you send your son or ward to the University, signify in a letter to the President whether he is to take a regular or irregular course; and if the latter, what particular branches he is to study. This will prevent those frequent and pernicious changes so common with boys left to their own will. A regular course is earnestly recommended to all whose circumstances will permit them to take it; but, if such be the desire of the parents or guardians of students, any particular branch of literature or science will be taught; but each student must have his whole time occupied.

2. The occasions should be very rare that you should consent for your son or ward to leave the University during the sessions, on visits home or otherwise. This is apt to be allowed during the Christmas holidays, without sufficient regard to the effect it may have on the studies the whole session. The Faculty generally allow a few days at Christmas for recreation—as much time as they think it safe for the students to lose from their studies.

3. Do not put much money into the pocket of your son or ward, nor allow him to contract unnecessary debts. Send him always, if practicable, at the *beginning* of the session. He should answer to his name in the Chapel at ten o'clock on the day of opening.

## GRADUATING CLASS OF 1859.

Marcus B. Dewitt,  
Robert Wilson Hooker,

William Andrew Haynes,  
William Logan McClure,

\* Wholly devoted to Theological studies:

Those wholly devoted to the studies of this Department are required to attend daily recitations in the text-books: Of those partially devoted to theological pursuits, such recitations are required as their time and circumstances will justify. As a general rule, however, all who recite in this Department, prepare one or more recitations each day.

A written Lecture is delivered each week upon Systematic Theology. In addition to this, the President of the University delivers a weekly Lecture upon some practical subject connected with theological pursuits.

#### EXPLANATION.

All those reciting in the Theological Department are required to undergo a careful examination upon each lecture upon Systematic Theology the morning after its delivery. All young men in the Institution preparing for the ministry are encouraged to attend these lectures. There is a meeting every Saturday morning in the Instructor's room, where the students are required to deliver extempore discourses, in the form of sermons, expositions of particular passages of Scripture, or some of the leading doctrines or duties of our holy religion. The object of these weekly meetings is to give the students some practical preparation for their great work. They are attended with interest, and found to be highly beneficial.

It is intended to make the course of studies *thorough*, and as full as possible for the time appropriated. Two years is the length of time fixed upon for the Theological Course. Candidates for the ministry who are pursuing their Collegiate Course here, can, by industry and economy of time, take one or two studies in the Theological Department in connection with their Collegiate studies; and thus, by commencing early enough, can complete the Theological Course in one year after completing their Collegiate Course. Every advantage of this kind will be afforded of which the student may be able or feel disposed to avail himself.

#### OBJECTS OF THE THEOLOGICAL SCHOOL.

It is the desire of those in charge of the Theological Department to contribute, as far as they may be able, towards furnishing to the Church not only an intelligent but a practical ministry. The text-books are eminently practical. Practical habits are encouraged among the young men here. As heretofore stated, there is a weekly meeting in the Instructor's room, for practical exercise. In addition to this, by preaching in vacant congregations around, and laboring in Sunday-schools in destitute neighborhoods, they make themselves useful, and acquire such habits as must greatly increase their usefulness hereafter. A ministry so educated cannot fail to be a blessing to the Church. We do not believe that the highest degree of intellectual culture has any tendency to impair, but rather to improve, the spirituality of religion, when the culture is connected with practical religious habits.

#### APPEAL TO THE CHURCH.

This Department has been but recently organized. The state of the funds has justified the appointment of but one Professor. The organization is, therefore, imperfect. The single Professor has, however, been able, by giving instruction in Hebrew and the Greek Testament, and by delivering a regular Course of Lectures upon Systematic Theology, and other subjects connected with Theological study, and hearing the recitations of the classes in the text-books, to meet, thus far, all the requisitions of the department. The President of the University also delivers regular lectures

on subjects connected with this department. It is a cherished object with the Board of Trustees, and we trust with the whole Church, to place the Theological School on a permanent and enlarged basis, and to make its organization as full and perfect as possible. We consider an intelligent, enlightened, and devoted ministry, the great want of the age; and we are fully satisfied that such a ministry cannot be furnished to the Cumberland Presbyterian Church without the kind of facilities which we are endeavoring to afford here. We trust that every member of the Church will esteem it a duty to contribute, according to the ability which God has given, to the support and promotion of this department. It should be patronized: it should be liberally endowed. A full endowment is essential, as its instructions are expected to be gratuitous. While instructors are thus laboring, they must be supported. Moreover, the most thoroughly educated, the best men in the Church, must be placed in charge of this department, and such men should be compensated for their services.

A theological Library is also greatly needed. A good library is an indispensable appendage of this department. A beginning has been made in this work. A few friends have made liberal contributions, and the nucleus of a library has been formed. Much more, however, must be done, and ought to be done speedily. We look to private liberality alone for the supply of this want. The Board have no means as yet of supplying it themselves. It is hoped that so important an object will not be overlooked by those who are able to contribute towards its attainment.

#### JUDGE EWING'S DONATION.

In the course of the last scholastic year, Hon. EPHRAIM M. EWING, of Russellville, Ky., has made a large donation in property to the Trustees of the University for the benefit of the Theological Department. The value of the property is not yet fully ascertained, but there is no doubt that it will prove sufficient for the endowment of one Professorship. A Professorship has accordingly been established and named in honor of the donor, the "Ewing Professorship." This is the most munificent donation which has ever been made by a single member of the Church, for the promotion of any single object. It is hoped that so noble an example will be imitated by many others.

The scholastic year in the Theological Department will hereafter commence the second Monday in September, and close the last Saturday in May. A long vacation is given, that both instructors and pupils may have a suitable season for practical labor in the ministry.

---

### COURSE OF STUDY.

#### SYSTEMATIC THEOLOGY—TEXT-BOOKS.

Ewing's Lectures; Dwight's Theology, so far as it may comport with our views; Butler's Analogy.

#### BOOKS OF REFERENCE.

Schmucker's Popular Theology; Dick's Theology; Hill's Theology; Donnell's Thoughts; Wall's Lectures; Stackhouse's Body of Divinity; Watson's Institutes; Fletcher's Checks; Bang's Reformer Reformed; Beecher's Works; Chalmers' Works; Knapp's Theology; M'Cosh on the Divine Government; Calvin's Institutes; Bellamy's Works; Paley's Works; Baxter's Works; Dwight's Infidel Philosophy; Leland's Works; Jeremy Taylor's Works; Butler's Analogy and Sermon's; Locke on the Un-

derstanding; Dugald Stewart's Works; Reid on the Intellectual Powers; Brown on Cause and Effect; Philosophy of the Plan of Salvation; Wesley's Works.

#### BIBLICAL LITERATURE—TEXT-BOOKS.

Bloomfield's Greek Testament; Septuagint and Hebrew Bible; Horne's Introduction; Jahn's Archæology; Robinson's Greek Lexicon; Gesenius's Hebrew Lexicon; Coleman's Ancient Christianity.

#### BOOKS OF REFERENCE.

Kitto's Cyclopedia; Burder's Oriental Customs and Oriental Literature; Stowe's Introduction to the Bible; Hug's Introduction to the New Testament; Newcombe's Harmony; Warburton's Divine Legation of Moses; Lowth's Lectures on Hebrew Poetry; Stuart on the Epistle to the Romans and Hebrews; Newton on the Prophecies; Hurd's Lectures on Prophecy; Wilson's Lectures on the Evidences of Christianity; Josephus's Works; Layard's Nineveh and Babylon; Robinson's Researches in Palestine; Alexander on the Psalms; Noyes on Job and Psalms; Smith's Lectures on Prophecy; Hardwick on Daniel; Barnes's Notes.

#### SACRED RHETORIC AND PASTORAL THEOLOGY.

##### BOOKS OF REFERENCE.

Campbell's Philosophy of Rhetoric; Walker's Elements of Elocution; Young Ministers' Companion; Young Preachers' Manual; Campbell's Lectures on Pulpit Elocution; Kames' Elements of Criticism; Vinet's Pastoral Theology.

#### ECCLESIASTICAL HISTORY AND CHURCH GOVERNMENT—TEXT-BOOKS.

Mosheim's Ecclesiastical History; Coleman's Ancient Christianity.

#### BOOKS OF REFERENCE.

Prideaux's Connections; Shuckford's Connections; Neander's and Giesler's Church Histories; Miller on the Ministry; Miller on Church Government; Smith's Presbytery and Prelacy; Campbell's Lectures on Church Polity; Dowlings's History of Romanism; Neal's History of the Puritans; Rollin's Ancient History; Eusebius's Church History; Chillingworth's Works; Hetherington's History of the Church of Scotland; D'Aubigne's History of the Reformation; Library of the Fathers of the Church anterior to the division of the East and West; Bell's History of the Church of England; A Church without a Bishop; Gibbon's Rome.

Students will be expected to furnish their own text-books. The books of reference will be found in the Theological Library, when completed.

An examination of the Students in the Theological Department will be held on Friday and Saturday preceeding the close of the Collegiate year.

# ENGINEERING SCHOOL.

THOMAS C. ANDERSON, D.D., PRESIDENT.

ALEXANDER P. STEWART, A.M.

ANDREW H. BUCHANAN, A.M.

## STUDENTS.

NAMES.	RESIDENCES.
Americus P. Cartwright,	San Augustine, Texas.
Carlton Curtis,	Memphis, Tenn.
William A. Ellis,	Nashville, Tenn.
Andrew W. Gould,	Nashville, Tenn.
Leland F. Riggs,	Vermillionville, La.
Joseph F. Thompson,	Maysville, Ark.

## COURSE OF STUDY.

### JUNIOR YEAR.

#### FIRST SESSION.

Algebra, (Davies' Bourdon).  
Geometry, (Davies' Legendre).  
Roads and Railroads, (Gillespie).  
Industrial Drawing, (Mahan's).

#### SECOND SESSION.

Trigonometry and Mensuration, (Davies').  
Land Surveying, (Gillespie).  
Descriptive Geometry, (Davies').  
Shades, Shadows, and Perspective, (Davies').

### SENIOR YEAR.

#### FIRST SESSION.

Analytical Geometry, (Church's).  
Mechanics, (Bartlett's or Weisbach's).  
Field Engineering, (Henck's).  
Civil Engineering, (Mahan's).

#### SECOND SESSION.

Calculus, (Church's).  
Mechanics, (Weisbach's).  
Bridge Construction, (Haupt's).  
Stone-Cutting—Plates.

Students will be taught Drawing—Topographical, Mechanical, etc., with Shading and Tinting; and be allowed ample opportunity for Field Practice with the Surveying Instruments.

Many young men in the West seek employment on railroad surveys, with the view of becoming civil engineers, who do not possess a respectable knowledge of even the elementary branches of Mathematics. The invariable result is *failure*, except in rare cases, where a high order of talent and an unusual degree of perseverance are combined. A professional education is more essential to success in this pursuit than in

Medicine, Law, or Theology. The design of the Engineering School is to afford facilities for the acquisition of such an education. The course of study embraces the entire range of pure Mathematics, the theory of the various branches of Engineering, and as much practical instruction as can be imparted in a school.

Two Professors will devote as much time to this School as its exigencies may demand. Students will be qualified, on the completion of the course, to take charge of surveying parties on railroads.

On admission, students will be classed according to their advancement. From one to two years will be required to complete the course.

For the regular course of Engineering, a tuition fee of \$50 and a contingent fee of \$2 *per session* will be charged.

For the sum of fifty-two dollars, a complete course of Land Surveying will be given, embracing Geometry, Trigonometry, and Mensuration, Gillespie's Land Surveying, Plotting, and field practice with the Compass and Chain. A few months only will be required for this course—from three to five—and the student, on completing it, will be fully qualified for the business of surveying land.

Students in other departments of the University who may desire it, will be taught course of Industrial Drawing, with shading and tinting. The text-books used will be Descriptive Geometry, Shades, Shadows and Perspective, and Mahan's Industrial Drawing. Two lessons each week will be given, and two sessions will be required to complete the course. The fee will be \$12.50 per session, and those only can commence this course who have studied Geometry and Trigonometry. Tuition, in all cases, must be paid in advance, and no part will be refunded.

Sessions and vacations same as in Collegiate Department.

Applications for admission or information should be made to Professor Andrew H Buchanan.

## PLAN OF INSTRUCTION.

It is only by exerting the energies of his own mind that a student can qualify himself for the bar. Any plan which would propose to make a lawyer of him without his doing the hard work for himself, would be idle and visionary. The virtue of any plan of instruction must consist of two things:

1. Its being calculated to make him work, or, in other words, study diligently.
2. Its so guiding and directing his work that it will not be wasted, but will, in the best way and in the shortest time, qualify him to practice law.

First: It must be such a plan as is best calculated to make him study.

Our plan is, to give him a lesson every day, and examine him on it next day from one to three hours. He has to answer questions in the presence of the whole class. If he has any spirit in him—any pride of character—any sense of shame—this will insure the closest application of which he is capable; for indolence is sure to sink him to a degraded position in his class.

There are only two other plans of getting a legal education. One is the old plan of studying in lawyers' offices; the other is the old Law School plan of teaching by lectures. Neither of these has any thing in it to secure application. The student is brought to no daily examination to test his proficiency. There is not the presence of a large class, in which he has to take rank either high or low. All that is calculated to stimulate him to constant, laborious application, is wanting in both these plans.

Secondly: The plan should not only be calculated to make a student work, but it ought to so guide and direct him as to make him work to the greatest advantage.

A man may work very hard, but, still, so unwisely, that he will accomplish no valuable object. It is equally so with the farmer, the mechanic, and the law student.—The student ought to have such a course of study assigned him, and be conducted through it in such a way as that he will understand at the end of his pupilage the greatest amount of pure, living, American law, and will know best how to apply it in practice. So brief is the period that they can be induced to spend in preparation for the bar, that it requires a very careful selection of text-books, and a careful supervision of their studies, to make their labors profitable. We have made our course American. Important as it is to trace the history of the law from its original sources, through all its mutations, it is not the appropriate work of the very short term which is in our country employed in preparation for license.

To direct their minds to what is most important in the text-books; to teach them what is, and what is not, settled; to correct the errors into which they may fall; to dispel the darkness that hangs upon many passages—this is necessary every day, and at every step of their progress. The law is a vast science, and a very difficult one; and the student needs every possible facility, to enable him, by the most arduous labor, to comprehend its leading elementary principles in fifteen months.

But this is not all he has to do. He has to learn how to apply these principles in

practice. This is the *art* of his profession, and he can only learn it by practice. It is as necessary a preparation for assuming the responsibilities of a lawyer as the learning of the science. If he learns it at the bar, it is at the expense of his client. If he learns it in the School, it is at his own expense.

### MOOT COURTS.

The exercises in these Courts do not consist in merely debating questions of law, but cases are announced in various forms to each student, on which he is to bring a suit, and another is appointed to defend it. There is a regular clerk and sheriff; the students, however, perform the duties of these officers in their own cases. The plaintiff's attorney gives his prosecution bond, issues his writ with the name of the clerk signed to it, makes the proper returns on it in the name of the sheriff, files his declaration, and keeps his own docket, besides having the case entered on the clerk's docket. He then hands his papers to the defendant's attorney, who examines them, and moves to dismiss the suit, or pleads in abatement, or demurs or pleads in chief.—If he fails to make defence in proper time, the plaintiff takes judgment by default against him. If the plaintiff fails to reply, or at any time takes the necessary step to prosecute the suit, he is *non prossed* by the defendant.

When the case is ready for trial, a jury of the students is empannelled, the cause is regularly submitted to them, the evidence on each side is introduced, the cause argued, the jury is charged by the court, and render their verdict. Judgment is rendered, and execution issues. On these executions returns are directed to be made in some cases that will subject the sheriff to summary judgment, and the plaintiff is required to move against him and his sureties, and adduce the official bond and the other evidence that may be necessary to sustain the motion, and then to enter the judgment on his minutes. In other cases, delivery bonds are given; in others, indemnity bonds; in others, one of the parties die; and in fine, the various cases are so directed as to involve all the varieties of practice that arise on executions.

In other cases, motions for new trial are made and overruled, and an appeal taken to the Supreme Court, an appeal-bond given, a bill of exceptions filed, and the record regularly transferred to that court, where the judgment is affirmed, or reversed and remanded for a new trial.

Equity cases are in like manner announced, and suits commenced and carried through all the processes known to the Chancery Court, such as references to the Clerk and Master, final and interlocutory decrees, and appeals to the Supreme Court.

In some cases, suits are commenced before Justices of the Peace, and brought into the Circuit Court by appeal or *certiorari*, and tried there.

Sometimes a regular *Venire Facias* is returned as from the County Court—a grand jury organized and charged by the Court, State cases given to students in which they act as Attorneys General, prepare indictments, have them regularly passed upon by the grand jury, and carry them through all the processes of a criminal prosecution—an advocate being always appointed to defend.

Cases are so framed as to put the student under the necessity of preparing the various kinds of instruments that are used in the transactions of men. Letters of administration, wills with proper certificates of probate, deeds duly proved and registered, promisory notes, marriage licenses, etc., etc. He is obliged to introduce them as evidence to sustain his suit or defence.

A Moot Court is held at the close of each collegiate year in public, which excites great interest among the students and greatly attracts the community. Until the close of the year 1853, this was a Supreme Court, exercising its appellate jurisdiction. But now it is a Circuit Court, and the trials are before juries selected from among the students, and involve interesting questions of fact and of law. In this Court, as well as in all the other exercises of the School, forms of proceeding are from time to time modified in such manner as best to answer the essential ends in view.

The advantage of this Moot Court system is, that it not only indoctrinates a student in the elementary principles of law involved in his cases, but also in the law of remedies. It trains him also to the discussion of facts, and to the exercise of that tact which is so important in real practice.

It may be objected that the course of practice, being according to the Tennessee law, is too local to be of very great benefit to students intending to locate out of this State. To this it may be answered, that it is obliged to be conducted according to the law of some State, and it had better be that with which the Professors are best acquainted. Tennessee occupies at present a middle ground between those States that have abolished the common law system of remedies and those that have essentially adhered to it. The student who becomes acquainted with her mingled system will be prepared to accommodate himself very readily to the rules of practice in any other State. There is a stronger analogy between the laws of Tennessee and any other State in the Union, than between the laws of England and any other State. American constitutions, statutes, and usages, have established a jurisprudence which, however variously modified in the different States, is nevertheless stamped everywhere with kindred American features. Such, for instance, is the law of descents, the law of conveyancing, and their court systems, and, in the South, the law of slavery.—Their processes to bring the parties before the Court, to obtain testimony, to try the case, and to carry the judgment or decree into execution, are analogous. The principal difference is in the modes of judicial allegation, some adhering to the forms of common law, and some adopting statements at large. As it is necessary for the student to understand some system, it had better be a medial American system. The practice is similar in all the States. And a lawyer who understands the practice of one State can accommodate himself to that of another State as easily as the tailor or other mechanic, who understands his profession, can accommodate himself to the ever-changing styles and fashions in his art.

---

## COURSE OF STUDY.

The School is divided into three classes: Junior, Middle, and Senior; each employing one session of five months in the studies allotted to it. These are, in the

### JUNIOR CLASS.

The History of a Law Suit; Walker's American Law; Stephens' Pleading; Kent's Commentaries; Story on Promissory Notes.

### MIDDLE CLASS.

Story on Bailments; Story on Agency; Story's Equity Jurisprudence; Story's Pleading; Greenleaf on Evidence; Bishop's Criminal Law.

### SENIOR CLASS.

Story on Conflict of Laws; Angell and Ames on Corporations; Lomax on Executors; Parsons on Contracts; 4 Kent reviewed; Story on the Constitution.

This course is very imperfect. But it is necessarily so. The question with us has been, whether the very short time the student devotes to preparation had better be spent in studying those venerable English authors who present the law as it *was*, or the American authors, who present it *as it is*. He must study the former before he can claim to be a learned lawyer, and he will study them if he aspires to an elevated rank in his profession. But as the design of his scholastic course is, or ought to be, to fit him as far as possible for discharging the duties of a lawyer, we think it is best that he should first acquire a knowledge of American jurisprudence, as it now exists and exerts a living power; and, for want of time, we are compelled to reject many books that would be important to effect this end.

The student furnishes his own books. They may be usually obtained in the Lebanon bookstores.

A student enters whatever class he chooses. But if he enters the Middle or Senior Class, with a view to graduation, he must first be examined on his previous reading.

No previous professional reading or literary qualification is required for admission.

#### SESSIONS.

The Fall Session commences on the second Monday in September, and ends on the last Thursday in January. The Spring Session commences on the succeeding Monday, and ends on the last Thursday in June.

#### EXPENSES.

Tuition fee, \$50 per session. A proportional deduction is made when a student enters at an advanced period of the session.

Contingent fee, \$2.

These fees must be paid before admission. No part of the fee is refunded on any account whatever.

Boarding is from \$2 to \$3 per week.

#### TEMPERANCE LAW.

No student is allowed to drink any intoxicating liquors. The penalty for a violation of this law is immediate dismissal.

#### GAMING.

This is strictly prohibited; and the severest penalties inflicted upon any student found guilty.

#### DEADLY WEAPONS.

Students have no use for pistols and Bowie-knives. The keeping or carrying of any deadly weapon is contrary to the laws, and subjects the party to admonition, suspension, and, in some cases, to expulsion.

#### LAW LIBRARY.

Each student pays the University Treasurer \$1, which admits him to the Law Library. The contingent fund thus created is expended to increase the number of books in the Library.

## LAW IN REGARD TO TEMPERANCE.

No student in any Department of the University shall purchase or drink intoxicating liquors as a beverage, or induce others to do so, or enter a tippling-house, knowing it to be such; and on conviction of drinking or intoxication, he shall be immediately dismissed.

## STUDENTS DISMISSED UNDER CENSURE FROM THE COLLEGIATE DEPARTMENT.

William Rasha Cannon,  
Armead Price,

Thomas Louis Mills,  
Rodney Shields Woods.

## PROSPECTIVE CHANGE IN THE COLLEGE COURSE.

After the present College classes shall have graduated, the rule which allows the substitution of two Modern languages in place of Greek, will be done away with, and all candidates for graduation will be required to pursue the course in Greek. This is to be understood as not applying to students who may enter College during the ensuing year.

Special students in Science may graduate as heretofore.
